

COVAPEARL STAR

Cosmetic Fluorophlogopites

Sensient Cosmetic Technologies introduces the Covapearl Star line, a new series of synthetic fluorophlogopite-based pearls. Covapearl Star pearls exhibit a superior lustrous sparkling effect and high color purity – no masstone. Surface smoothness, pleasant slip and perfect payoff provide high compressibility and superior binding performance. The selected grades have very low heavy metal content and comply with global regulations.

COVAPEARL STAR BRIGHT 9332
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR LIGHT DORE 2335
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR LIGHT RED 3339
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR LIGHT VIOLET 5331
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR LIGHT BLUE 6335
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR LIGHT GREEN 7337
Synthetic fluorophlogopite / CI 77891
20 - 100 µm

COVAPEARL STAR SILVER 9372
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

COVAPEARL STAR DORE 2375
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

COVAPEARL STAR RED 3379
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

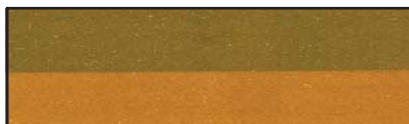

COVAPEARL STAR VIOLET 5371
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

COVAPEARL STAR BLUE 6375
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

COVAPEARL STAR GREEN 7377
Synthetic fluorophlogopite / CI 77891
40 - 150 µm

COVAPEARL STAR GOLD 2302
Synthetic fluorophlogopite / CI 77891 / 77491
20 - 100 µm

COVAPEARL STAR COPPER 3332
Synthetic fluorophlogopite / CI 77491
20 - 100 µm

COVAPEARL STAR BRONZE 8302
Synthetic fluorophlogopite / CI 77491
20 - 100 µm

- High purity
- Transparency
- Whiter finish
- Superior brilliant luster
- Extreme smoothness and soft feel
- Good skin adhesion
- Controlled particle size distribution
- Ease of use
- Suitable for all cosmetic applications.

COVAPEARL MINI STAR

Cosmetic Fluorophlogopites

Sensient Cosmetic Technologies introduces the Covapearl Mini Star line, a new series of small synthetic fluorophlogopite-based pearls. Covapearl Mini Star pearls exhibit a superior lustrous sparkling effect, brighter color and higher chroma. Excellent transparency, no yellowing nor graying effect, intense pearly effect in mass but transparent pay off. The selected grades have very low heavy metal content and comply with global regulations.

COVAPEARL MINI STAR GOLD 2315
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

COVAPEARL MINI STAR RED 3319
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

COVAPEARL MINI STAR PURPLE 5311
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

COVAPEARL MINI STAR BLUE 6315
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

COVAPEARL MINI STAR GREEN 7317
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

COVAPEARL MINI STAR SILVER 9312
Synthetic fluorophlogopite / CI 77891
5 – 30 µm

- Very small size pearls for an even tone upon application with an HD flawless result
- High purity, excellent transparency and no yellowing nor graying effect compared to natural mica based pearls
- Superior sparkling luster, brighter color and higher chroma than natural mica based pearls
- Intense pearly effect in mass but transparent pay off
- **Specifically adapted to skin & hair care applications**
