

SPOTLIGHT ON: HALAL COSMETICS

**Market for HALAL beauty is expected to rise by
15% in the next five years**

Global Halal Cosmetics Market is expected to reach \$54,164 million by 2022.

The growth of the global halal cosmetics market is driven by rise in Muslim population which now accounts for over a fifth of the global population, development of the halal market, and increase in compliance of halal certification.

Halal is an Arabic word meaning **lawful** or **permitted**. The **opposite** of halal is **haram** which means **unlawful** or **prohibited**.

Applied to **cosmetics**, **halal products** are manufactured, produced, and composed of **ingredients** that are “**permissible**” under **Islamic law**.
